VISION 2030

ASG CORPORATION OVERVIEW

Established in 2010, ASG Corporation operates across three strategic business pillars: Logistics, Aviation, Infrastructure. Over 16 years of foundation and expansion, ASG has systematically cultivated a synchronized service ecosystem backed by nationwide operational capabilities.

As one of the two pioneers establishing the Off-Airport Cargo Terminal (OACT), ASG continuously expands its logistics hub network across international gateway airports, industrial zones, and key economic centers.

ASG Corporation comprises 23 subsidiaries and has a workforce of over 2,000 employees, maintaining long-standing partnerships with major global airlines, high-tech enterprises, and international logistics conglomerates.

Beyond core operations, strategic investment, M&A, and large-scale infrastructure developments are actively driven to complete the end-to-end value chain from physical assets to operational services, offering comprehensive and high-precision corporate solutions.

Guided by a long-term strategic vision, ASG aspires to be a trusted corporate partner to clients and investors, driving sustainable value creation and long-term fiscal fortitude.

VISION

To become the leading and most trusted enterprise in Logistics Services, Airport & Aviation Services, and Infrastructure Investment & Industrial Zone Development in Vietnam.

MISSION

To create, operate and develop an ecosystem of infrastructure and professional, high-quality services and to accompany our customers and partners in enhancing production capacity, expanding markets, improving business efficiency and achieving sustainable development.

CORE VALUES

A

◆ AGILITY

Agility is more than just a feature of our services; it is at the heart of everything we do. At ASG, we think and act with care and strength, always staying ready to adapt to any situation.

S

◆ SOLIDARITY

Solidarity is the core value that brings ASG together. Every employee and every subsidiary is an important part. We share the same goals and spirit, working together to contribute our ideas, overcome challenges, and share our successes.

G

◆ GROWTH

ASG always aims for sustainable growth, not just for the Group, our Shareholders, and Employees, but also for the development of our Customers, Partners, and the Community. Growth is both our goal and our motivation, driving 'ASG people' to keep working hard and stay in step with market trends.

MULTIMODAL TRANSPORTATION

ASG Corporation delivers dynamic multimodal transportation services by air, sea and road, meeting diverse transportation requirements.

ASG operates a fleet of over 1,300 vehicles (standard trucks, reefer trucks and container trucks), including over 100 specialized air-cargo trucks and 30 reefer trucks. Concurrently, ASG operates a dedicated Ocean shipping container vessel fleet running fixed North-South domestic routes (Hai Phong - Da Nang - Ho Chi Minh City), ensuring stable, high-capacity maritime transport.

ASG has commissioned a 144-TEU container barge operating across the Mekong Delta and Southeastern regions, systematically expanding inland waterway transport (IWT) and river/seaport operations. This strategic move optimizes logistics costs, strengthens supply chain connectivity, and relieves pressure on road transport.

CUSTOMS BROKERAGE & FREIGHT FORWARDING SERVICES

ASG Corporation provides nationwide multimodal Customs Brokerage, Freight Forwarding, and import/export freight services by air, sea and road.

Services are provided at key logistics gateways such as Noi Bai and Tan Son Nhat airports, and at major seaports and border gates (Lang Son, Hai Phong, Da Nang, Ho Chi Minh City, etc.), ensuring agile and synchronized handling tailored to each transport modality.

Powered by a seasoned workforce and standardized professional procedures, ASG enables clients to shorten lead times, optimize costs, and mitigate trade compliance risks-reaffirming its reputation in customs clearance and international trade facilitation.

SEAPORT & RIVER PORT OPERATIONS

ASG Corporation develops port operations as a strategic business line to expand its Logistics service ecosystem and enhance supply chain value creation. Services focus on managing, operating and optimizing ports and logistics terminals, enabling rapid, safe and cost-efficient cargo flow.

INFRASTRUCTURE INVESTMENT & INDUSTRIAL ZONE DEVELOPMENT

Infrastructure investment and Industrial zone development is developed by ASG Infrastructure And Industrial Zone Development Company Limited (ASGI), a key subsidiary of ASG Corporation, with the strategic orientation of becoming a professional, green and sustainable industrial infrastructure developer.

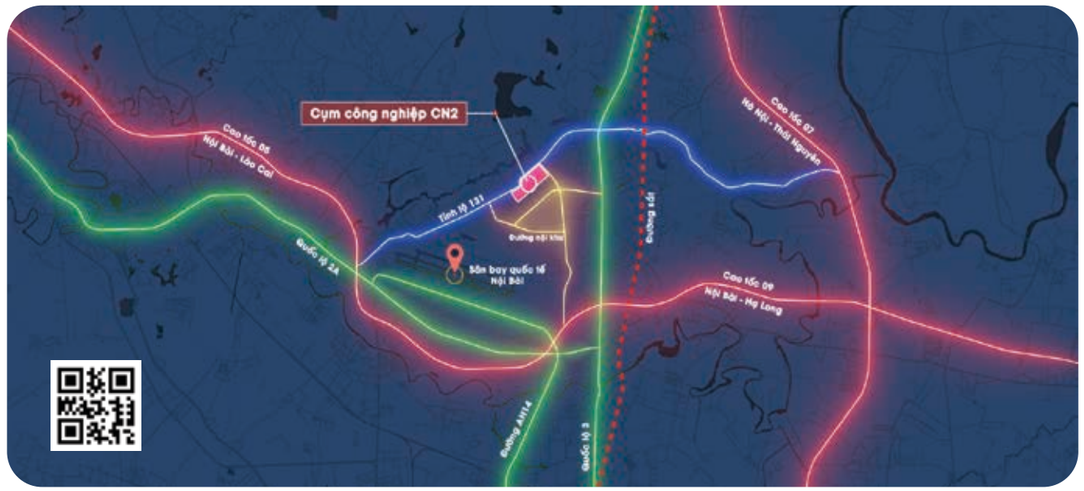
ASG focuses on investing in and developing industrial zones and clusters equipped with modern logistics infrastructure, closely connected to major manufacturing hubs and international airports, thereby completing the Group's ecosystem and enhancing supply chain value.

INFRASTRUCTURE INVESTMENT AND INDUSTRIAL ZONE DEVELOPMENT ROADMAP:

- Develop industrial zones integrated with logistics centers
- Build synchronized industrial – logistics – urban complexes
- Attract high-tech manufacturing enterprises
- Pursue sustainable industrial development, applying modern management technologies

ASG Corporation is actively researching and executing large-scale projects with total investment of several thousand billion VND across key economic corridors, delivering synchronized infrastructure for domestic and international investors.

CN2 Industrial Cluster (Soc Son, Hanoi City) stands as a flagship development of ASG. Spanning 50.5 hectares and strategically positioned just 5 km from Noi Bai International Airport, the project is developed as a manufacturing zone for supporting industries and high technology, combined with a modern logistics center.



CN2 TECHNICAL INFRASTRUCTURE

The project has completed technical construction and acceptance testing, and has met all legal conditions for commercial lease and sale since Q2/2026. Concurrently, ASG Corporation continues to research and expand investments across Hanoi City, Bac Ninh Province, Hung Yen Province, and Ho Chi Minh City to capitalize on manufacturing relocation trends and enhance supply chain value.
